And Break In Natural Gas
Pipe Line Cause Inconvenience and Trouble.

ARE FLOODED

Break in Gas Service Ties Up
Industries and Homes.

Warm weather and warm rains falling Saturday night and Sunday all day did a great deal toward clearing the streets and pavements of the masses of snow and ice that have clogged them to depth of thirteen inches for nearly ten days. But once in the past thirty years have such universal weather conditions prevailed in this section.

The promise of warmer weather was realized with a return of sunlight Friday and with the increasing high temperature of Saturday, followed by the rains, the huge blanket of snow soon began to melt away. The combination of rain and warm weather created a fog that shifted, rose and fell all day Sunday late in the evening totally obscuring lights and making travel extremely dangerous. The roads that had been blocked to travel by the accumulated ice and snow were reopened, and country people who had been snowed out of their homes for a week were enabled to again establish communication with the outside world. Some of them reported that they had not seen a vehicle or received any mail in that time. Automobiles were put out of commission, and roads were cleared by snow plows. The road from Bunker Hill to Paris, and the pike from Paris to Winchester via North Middletown, were cleared by a large force of men in the employ of Mr. Edward Simms, at his big farm near North Middletown. Other pikes throughout the county were cleared by individuals and by the county road scrapers.

The melting snow and rain soon had the expected result, sending branches and creeks of the county out of their banks, and causing considerable property damage. On Sunday night the entire force of the Paris Milling Company was called out to move the flour and stock from the first floor of the mill, which was threatened by the encroachments of the water from Stoner Creek. Houston and Stoner Creeks and all their tributary branches were converted into rushing streams of muddy water, covered with floating debris of all kinds. Several housekeepers and business men residing at the lower end of Houston Avenue were in their homes by the overflow from Houston Creek, and had to be rescued in boats. The big branch running through Campbellsville became a creek in size and drove people from their homes. One woman residing on Winchester street was taken from her home together with her small child, by rescuers who drove to her aid in a buggy. She had spent nearly the whole night in terror, being alone and unable to make anyone hear her. From all over the county reports came of the destruction and damage wrought by the flood. A bridge on the Winchester pike was washed out, cutting off communication with Paris and the surrounding country. In many places the only means of communication was by telephone, and anything like an accurate account, owing to the universal conditions, report of the situation was hard to obtain. Three rural mail carriers were forced to return, being driven back by the high waters in the branches crossing the bridges in their territory.

Clear weather set in early yesterday morning, tending to check the rising waters and bringing the possibility of relief from the conditions that threatened serious damage to property. So far as heard from in the city and county no lives were lost and no serious accidents were reported.

To add to the general discomfort and distress caused by the flood a break in the main pipe line of the Central Kentucky Natural Gas Co., which supplies Paris, as well as other Central Kentucky towns, occurred between Winchester and Mt. Sterling, putting the line entirely out of commission. The break was caused by a terrific landslide of snow, ice and mud. The company at once put a big force of men to work building a temporary pipe to supply their customers, with the fuel.

Houses that had abandoned the use of coal were the scenes of much discomfort, and many a business man went to his work breakfastless or ate a cold lunch. Coal oil heaters were at a premium and the demand on coal dealers was unprecedented in the history of Paris. Some business houses were forced to close, not being prepared for coal heating. At the office of THE NEWS the shut-down of the gas supply caused the greatest inconvenience, the linotype and the heating apparatus being put out of commission.

THE TOBACCO MARKET.

The Bourbon Tobacco Warehouse Company sold yesterday, 109,810 pounds for \$21,103.52. The Bourbon House sold 70,600 pounds, average of \$18.98. The Paris House sold 39,210 pounds, average \$19.63. The average for both houses was \$19.21 per hundred.

The market was active and stronger on all grades.

MUST NOT DIVULGE.

Postmaster J. Walker Payne has received word from the Postoffice Department at Washington that in the future postmasters will not be permitted to give any information touching the finances of the personnel of the office force except the gross postal receipts and figures on money order and postal savings business. The order has recently been issued by the Postmaster General. No reason is given and the order has caused considerable comment.

MAYSVILLE DEFEATS PARIS.

After having been defeated by the P. H. S. basketball team in the game at Paris recently the team of the Maysville High School "came back" in strong form and administered a defeat to the Paris team in a game at the auditorium in Maysville Friday night.

The game was a hard-fought one from start to finish. At the end of the first half the score stood 2 to 0 in favor of Maysville. In the second half the Maysville team played rings all around the Paris team.

The game was delayed about ten minutes in the second half caused by an argument over a play but the Maysville boys finally turned up victors by the score of 29 to 16. A number of Paris "fans" attended the game to "root" for the home team.

BUILDINGS TO BE RAZED.

As soon as the weather conditions will permit there will be something doing in the demolition of old houses in Paris, as a result of the recent visit of a Deputy State Fire Marshal from the office of State Fire Marshal Pannell, at Frankfort.

The deputy came to Paris recently on a tour of inspection, and upon his recommendations made in his report to headquarters the following houses were condemned and ordered torn down and removed in thirty days: The old Floral Hall building in Fair Grounds Addition; frame cottage on High street, between Eleventh and Twelfth; two rooms in rear of same; frame stable on Main street, below the L. and N. footbridge.

The three loose leaf tobacco warehouses in Paris were also required and instructed to have their places of business fully equipped with fire extinguishers or with a hose system, so as to provide adequate fire protection.

ELECTRIC HEADLIGHTS ON LOUISVILLE & NASHVILLE

Electric headlights are making their appearance on this division of the Louisville & Nashville railroad. They have been added to several of the big engines on this division and others will be similarly equipped as rapidly as possible.

Engines sent into the company's shops for repairs are not sent out until stripped of the old oil-burning headlights and replaced with the latest improved electric headlights. It will be a matter of but a short time until all the engines on every division of the Louisville & Nashville, both freight and passenger, will be equipped with the electric appliances.

REAL ESTATE DEALS.

Mr. Davis Patrick, of near North Middletown has purchased of Mr. Clarence Laughlin, three acres of land and residence lying on the Plum Lick pike. Mr. Laughlin has purchased the home place of Mr. Charles Knox, on the same pike, containing a residence and two acres of ground.

Mr. E. E. Wright, of Robinson, Ky., has purchased the Ben Harp place near Jones Shop, containing forty-six acres, for about \$180 per acre.

James Allen, of the Cynthiana Democrat, THE NEWS was enabled to get out this issue, by using the Democrat's Linotype. The editorial and mechanical force of THE NEWS worked in overcoats, sweaters and top coats, while the panic was on, their misery being slightly relieved by coal oil heaters hurriedly pressed into service.

The papeers of Winchester, Lexington and Mt. Sterling were also sufferers from the break in the pipe line, the mechanical departments being dependent upon the natural gas service for operation of their linotypes and melting pots, for the metal and used in casting the lines.

The break occurred about fourteen miles from Mt. Sterling, between that place and Olive Hill, in the Straight Creek neighborhood. The latest report was to the effect that the service would probably be restored by this morning, as the company was using every means to do so.

Owing to the gas shortage, the Alamo Theatre did not open until night and the Paris Grand remained closed from the same cause. The Paris City School held but one session, as did the Paris Home School. Many pupils in the county were unable to get past the swollen streams. The county schools were also seriously affected.

PYTHIAN HOME COMING FOR FEBRUARY 22.

An old-fashioned Home-Coming will be held by Rathbone Lodge, No. 12, Knights of Pythias, at their Castle Hall on Thursday, February 22, 1917, in celebration of the Fifty-third Anniversary of the founding of the order.

The lodge will be called to order promptly at 7:30 p. m., when the usual routine business will be transacted. A large class will be initiated in the Knight Rank during the evening and a degree team from Covington will exemplify the work.

Effort is now being made to have R. A. Young, Past Grand Chancellor Commander for Kentucky, present for the purpose of an address and every indication now is that he will attend. Sir Knight A. C. Byars, of Lexington, is also scheduled for an interesting address on the subject, "Practical Participation in Pythianism."

Since the local lodge was chartered many members have been initiated and after the Home-Coming Meeting there will be no excuse for any member not knowing his brothers in person. The older members should set an example and be present on the occasion while it is incumbent of the younger members to also be present to convince the older members that the same high standard and principles of the order are being maintained.

Incidentally, and to re-assure those that need encouragement to attend lodge, there will be a buffet lunch served during the evening and the smokes will follow.

There will be a place for every member and we want every member in his place.

ALLEGED PLOT AGAINST THE PRESIDENT'S LIFE.

That Presidents Wilson's life was threatened by an anarchistic organization known as "The Blasters," of which Thomas J. Mooney, on trial for murder, was a leader, will be shown by evidence to be presented in Mooney's trial. Assistant District Attorney Cunha declared Thursday in Superior Court in his opening address to the jury at San Francisco.

"I will prove," said Cunha, "that these men plotted revolution against the Government. I will prove that they said in an edition of The Blast, the weathercock in the White House had better watch out. Suppression of the voice of the discontented leads to assassination."

Beginning his address in Court, Cunha outlined the history of the bomb explosion last July, in which 3 persons lost their lives and in which it is charged Mooney had a part.

"I will show a motive for Mooney's participation in this crime and that he advised and encouraged it," said Cunha. "I will prove that prior to January, 1916, Mooney, Alexander Berkman, Miss M. E. Fitzgerald and others entered into a conspiracy to bring about an uprising against property owners, the confiscation of Government, and that they called themselves 'The Blasters' and publicly announced in 'The Blast' the objects of their conspiracy."

B-4 FIRE Insure with W.O. HINTON & SON, AGTS

RESIDENCE IS BURNED.

Fire originating from a defective flue destroyed the residence of J. M. Rains, on Main street, in London, Friday night. Local boy scouts gave valuable aid in removing contents all of which were saved.

EIGHT-YEAR-OLD HEROINE SAVES CHILD'S LIFE.

Louise Wale, 8 years old, who lives at the home of Walter Harp, of Middletown, probably saved the life of Mary Rudd, 3 years old, when the latter's clothing caught on fire, while she was standing before an open grate. With rare presence of mind and unhesitating her own danger, she attempted to put out the flames with her hands, she dashed through the house and secured a bucket of water, which she poured over her little playmate, putting out the fire.

MORE BASEBALL DOPE.

The contemplated establishment of a baseball club in Paris for the coming season may become a reality if the present plans of the promoters bear fruition. A meeting of the interested parties will be held in Cincinnati at an early date, probably some day this week, for the purpose of going over the situation.

Mr. Charles Applegate, of Newport, well-known here as the former manager of the Paris team in the last days of its revival after the old League had given up the ghost, and manager of the famous Wiedemann team of Newport, who is one of the leading spirits in the new organization, has written Mr. P. A. Thompson, of Paris, in regard to the matter, stating that he hoped to see teams organized in Paris, Winchester, Lexington, Cynthiana, Maysville and Covington. It is the purpose of the promoters to have each team composed as far as possible of local players, as in that way the expense of maintaining the teams could be reduced to a minimum. Mr. Thompson replied to the letter from Mr. Applegate, enclosing a list of local players, also a list of Paris "fans" who would be likely to take stock in the new league club for Paris. It is the intention of the promoters to effect the organization with a limited number of stockholders, and expand afterward if the business in each club's territory should warrant it.

It is earnestly hoped by the Paris "fans" that the matter will go beyond the "corner-grocery-argument" stage, and that the next season will see a good team placed here and placed on a safe and sound financial business basis. The past year has been one of the most prosperous ones in the history of the city, and there ought to be very little trouble in securing the necessary funds for establishing and maintaining such a club here.

L. & N. ROAD OBJECTS TO INCREASED ASSESSMENT

A petition was filed in the United States Court at Frankfort, Thursday, by the Louisville & Nashville Railroad Company to enjoin a greater franchise assessment of the company for 1916 than \$4,000,000.

The petition states that the total value of the Company's property in this State does not exceed \$53,000,000 for taxable purposes and that if the State Board of Valuation and Assessment deducts from this value the assessment of the roads in Kentucky heretofore assessed, the property upon which they pay an assessment and the tangible property assessed by the State Railroad Commission that its franchise value will not be greater than four million dollars.

The court is asked to enjoin the Board from certifying to the Sheriff and to restrain the Sheriff from collecting on a greater franchise assessment than \$4,000,000.

DEATHS.

ASBURY.

Mrs. Nanrie Asbury, aged sixty-five, wife of Mr. John Asbury, of Wilmore, Ky., died at the home of her daughter, Mrs. Charles Hicks, in Cynthiana, Friday morning. Mrs. Asbury had been ill for several months with a complication of diseases, and was brought to the home of her daughter, in Cynthiana, in the hope that the change would benefit her.

Mrs. Asbury was a resident of Paris at one time, having conducted a boarding house in what was then the old Thurston House or Central Hotel, now occupied by the Simon Department Store. She is survived by twelve children. Funeral services were held Saturday morning at the Benson Methodist church, conducted by Rev. E. K. Pike, of Falmouth, assisted by Rev. E. L. Griffey and Rev. Fred Innes, of Wilmore.

CONGRESS MAY CHANGE DANISH TO "DEWEY ISLES."

WASHINGTON, Jan. 22.—Change of name of the Danish West Indies to the "Dewey Islands" in honor of Admiral Dewey was proposed in a joint resolution introduced Thursday by Representative Allen, of Ohio, who announced that he was submitting letters to President Wilson and to the Foreign Affairs Committees of Congress urging the change.

The idea of naming the islands for Admiral Dewey was suggested in a telegram from Alexander Landesco, of Cincinnati, to Congressman Allen.

PLAT OF FAIR GROUNDS BUILDING SITES.

The plat of the Fair Grounds, on South Main street, will be completed and ready for inspection about January 15, and can be seen at the Deposit & Peoples Bank. These grounds will be cut into desirable and roomy acre tracts and are to be placed on sale February 3.

This is the most desirable tract of land around Paris for suburban homes, and no doubt will find a ready sale to Bourbon people.

For full particulars call on the undersigned.

CIGARETTES GO UP.

Increased prices for cigarettes have been announced by the United Cigar Stores Company and the Tobacco Products Corporation, of New York. Advances by the United taking effect yesterday, ranging from 1 to 3 cents a box of a dozen cigarettes. The higher cost of labor, tobacco and wrapping material is given as the reason. The increases by the Tobacco Products Corporation, effective at once, scale from 25 cents to \$1 for each thousand cigarettes.

MILLERSBURG

—Mr. E. S. Barton has sold his poolroom to Mr. Isaac Furman, and has given possession.

—Miss Alice Ingels, of Eminence, and Mrs. Lydia Conway, of Paris, are guests of Mrs. G. W. Judy.

—Messrs. G. W. and T. D. Judy were at the bedside of their brother, Dr. G. D. Judy, at Lexington, Tuesday.

—For Plumbing and tin work call on George Hill. Home phone 114. My business house adjoins the harness shop of Mr. F. A. Jones. (23-2t)

—The concert given Friday evening under the auspices of the Y. W. C. A. of the M. C., by the Helen May Abbott Concert Co., was one of the best of its kind witnessed in Millersburg for a long time. Miss Abbott is a splendid reader, her pianist and violinist were equally good. They were the recipients of numerous encores and responded liberally.

—Mr. David Howard, aged about seventy, died Friday after a brief illness of the grippe. He had been sick but a few days. He is survived by two daughters Mesdames Ollie Ward, of Lexington, and James C. Fichtelmaster, of Paris; five sons, Messrs. George and Gus Howard, of Lexington; James, Ollie and Leonard Howard, of Millersburg. Funeral services Sunday morning by Elder C. O. Cossaboom, interment in Millersburg Cemetery.

—Mrs. Strother Insko, of Detroit, Michigan, died Friday night at the home of her brother, Mr. Deas McMahon, of this city, or praeemic poisoning. Mr. and Mrs. Insko came here during the Christmas holidays on a visit. Mrs. Insko seemed to be in perfect health, but shortly after arriving here she was stricken with an attack of grippe, after which a complication of diseases set in. Mr. and Mrs. Insko resided here. She was formerly Miss Mary McMahon, daughter of Thos. McMahon, of this city, and at one time was day operator for the Bourbon Home Telephone Co. Some years ago Mr. and Mrs. Insko moved to Detroit, Mich., where they have since resided. She is survived by her husband, one little daughter, her father, Mr. Thomas McMahon, one sister, Mrs. Sarah Shea, and two brothers, Messrs. Dennis and Ernie McMahon, of this city. The funeral was held Sunday afternoon at the home of her brother, Mr. Dennis McMahon. Services were held by Elder C. O. Cossaboom, of the Christian Church. Interment in Millersburg Cemetery.

Rough and Tumble For Boys.

The death of a freshman in a class fracas at the University of Pennsylvania will set many anxious parents to worrying about the perils their boys have to meet. Probably this particular form of sport was better suited to the time when student groups were smaller. The life can be crushed out of a fellow in a scrimmage of the big classes of the modern college, as this sad event proves.

At the same time the ruling out from college life of rough scrimmages of this character will not make boy life appreciably safer. The perils lie elsewhere.

Boys from early age have a most delightful heedlessness of the dangers of the world they live in. They climb to dizzy heights rejoicing in the tremors their mothers suffer. After they have broken a few arms or legs they begin to have a more wholesome respect for the laws and forces by which they are surrounded.

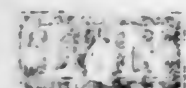

But a boy never feels quite so happy as when he is swimming out in the middle of a lake or river where there is just a possible chance of getting drowned, to give adventure spice.

A boy seems to need a certain amount of rough and tumble and danger in order to develop hardihood, otherwise there is an ignoble fear in his character that may be a terrible debilitating influence later on.

For every one boy who is killed at rough scrimmages in college or in the shock of the football melee, a hundred are destroyed by corroding vices, and another hundred are killed by physical weaknesses. The boy who is ruled out of rough play may develop heart disease in the hard runs of even so innocent looking a game as lawn tennis. He is still more likely to suffer from defects due to inactive habits and lack of rough, vigorous exercise. It is a perilous thing to let a boy go into rough sports and it may be a perilous thing to keep him out of them.

FEDERATED WOMEN'S CLUBS WILL MEET.

Meeting of the Federated Women's Clubs of the Seventh District has been called for February 6 at Eminence. Miss Ada May Cronwell, Chairman of the district, urges all clubs to send their full quota of delegates to this meeting, which is called for the mutual benefit of all clubs in the district. Speakers will discuss many lines of club work. State Chairmen of departments will report and the interchange of ideas will make the one-day meeting a helpful occasion. The district includes the clubs of Beautyville, Campbellburg, Eminence, Frankfort, Paris, Georgetown, Huttel, Irvine, Lexington, North Middletown, Pisgah, Versailles and Winchester. Miss Cronwell's Secretary, Mrs. J. C. Helburn, of Eminence, has charge of local arrangements for the comfort of delegates. Luncheon will be served at noon by the Eminence Women's Club.

TANLAC CHEERS ELDERLY COUPLE

Pulls Them Out of Despair of Health Worries.

Mr. and Mrs. Jens Jensen, West Park, O., nearing their eightieth milestone, are happy and contented and have a brighter outlook on life than many a younger couple.

During the past three years they were far from happy, and Mr. Jensen relates how they overcame their worries.

"I am 79 years old, and for the last three years my wife and I suffered so severely that life no longer seemed worth living," said Mr. Jensen.

"My wife was worse off than I was. A great deal of time she was unable to move on account of aches in her limbs, back and shoulders. The little she ate disagreed with her, and she was in constant pain."

"My condition was about the same as hers. The only thing we had to look forward to was the day when our worries would cease."

"We decided to try Tanlac because we heard how it had helped so many. Now my wife can eat anything without feeling the least distress. Instead of lying in bed because of aches and pains, she gets up, dresses herself, and does the house work—thanks to Tanlac."

"Tanalac helped me as much as it did Mrs. Jensen, and I would feel ungrateful if I didn't say so."

Tanalac, the master medicine and reconstructive tonic, is sold exclusively in PARIS by Varden & Son. Other exclusive agents in nearby towns are as follows:

HUTCHISON Snell & Wood; MILLERSBURG, W. G. Wadell; ELIZABETH, Oscar Smith; CARLSLE, Tureman & Son; GEORGETOWN, C. H. Arnold; WINCHESTER, Duty Drug Company; AUSTERLITZ, B. S. Parish. (adv)

OHIO RIVER & COLUMBUS ROAD TO ABANDON TRAIN SERVICE

The owners of the Ohio River & Columbus railroad have ordered the discontinuance of operations on that road. The people of Brown county are up in arms over the order, as they subscribed \$85,000 toward building the road, and have never realized one penny on their investment, they say.

Discontinuance of operations will play havoc with the town of Ripley, nine miles below Maysville, as its very existence now depends on this road, and it will mean the removal of the loose leaf warehouse, the Standard Oil Company branch, the big brick plant and several factories. It also will work a hardship on the merchants in getting their supplies. The Public Utilities Commission of Ohio has been appealed to, and the matter will be carried into the courts.

CONFIRMED TESTIMONY

The Kind Paris Readers Cannot Doubt.

Doan's Kidney Pills have stood the test.

The test of time—the hardest test of all.

Thousands gratefully testify.

To quick relief—to lasting results.

Paris readers can no longer doubt the evidence.

It's convincing testimony—twice-told and well confirmed.

Paris readers should profit by these experiences.

Mrs. J. T. Martin, 1024 Main street, Paris, says: "Kidney trouble came on from a fall and the results were very severe, causing me more suffering than the fall itself. No one can ever know what I went through at that time for I suffered awfully. My back ached and pained until I thought it would break in two. Sharp twinges shot through my kidneys and if someone had hit me in the back with a heavy axe, I wouldn't have known the difference. In one week after using Doan's Kidney Pills, I felt like a different woman, for they greatly benefited me." (Statement given February 17, 1908.)

RESULTS THAT REMAIN.

On November 9, 1916, Mrs. Martin said: "Doan's Kidney Pills have made a cure for me and it has been permanent."

Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Martin has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y. (adv)

HERE IS A CHANCE TO BECOME A PROPHET.

Maysville people who fear a flood in the Ohio river are just now putting to test an old German theory to allay their fears. A snowball the size of a grapefruit is used. The snowball must be flattered on one side by cutting a slice off with a knife. A hole must be burned through the snowball with a red-hot poker or a cigar lighter and must be direct through the snowball. The flame hollows out a round hole which becomes soot-covered and the snowball becomes translucent. If a clean hole is made clear through the snowball without a drop of water falling, it is a sure sign the snow will go away—without a rain.

Kin Folks And Friends!

I have ten fingers and ten toes. I can count that much, but I just can't count all my good friends down South here—they are far too many.

And I'm mighty proud of them. The men who make me, say you can tell real quality by the company one keeps.

Blood will tell. A good name and good breeding count most of all.

And that same, I reckon, applies to cigarettes, too. More and more gentlemen of the South are smoking me, SOVEREIGN, every day, because they know I come from good old Virginia and Carolina stock—the finest, grandest stock in all the world.

Quality is the thing, friend—you can't deny it. And I stand for Quality.

You Folks of the South KNOW good blood! You Folks of the South KNOW good tobacco!

That's why I am so loved among you all down here. So I am proud to say—

I am guaranteed by *The American Tobacco Co.* —Buy me. If you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.

Adjoining City of Paris, Ky.

I will sell at public auction, on the premises, on

THURSDAY, FEBRUARY 8, 1917,

at about 10 o'clock a. m., my farm, located on the Paris & Georgetown turnpike, half a mile from the city limits of Paris, and within about one mile of the Paris Court House.

The tract contains about 122 acres of land, mostly in grass, and is within walking distance of the city of Paris.

The farm has never failing water for man and beast.

The residence is a two-story brick, containing eleven comfortable rooms and kitchen, four hives, presses, cabinet mantels, good cellars, etc.

There is on the place a stock barn, cow sheds, wagon shed, buggy houses, servants' house, new corn crib, smoke house, ice house, chicken house, etc. Large cistern in kitchen door.

The farm will first be offered in three separate tracts, as listed below, and then will be offered as a whole.

TRACT No. 1—Contains about 44 acres, fronting on the Georgetown pike, and runs parallel with E. C. Cleveland's line to the Bedford land in the rear. Land is all good soil, all susceptible of cultivation, and has ample water supply.

TRACT No. 2—Contains all of the improvements on the place, excepting the corn crib and has about 38 acres of land, orchard, etc.

TRACT No. 3—Adjoins tract No. 2, and adjoins the Lyle place (now Dr. Henry) on the East, and contains about 40 acres of land, well watered. On this tract is located the corn crib and a rock quarry, which has been used by county of Bourbon to secure metal for public road.

This farm is situated in an excellent neighborhood, and is an ideal location for a home. Prospective purchasers are invited to call on the undersigned, who will, if desired, show them the place.

TERMS—One-third cash on delivery of deed, the balance in two equal payments, the first payable in one and two years from date, bearing interest at the rate of 6 per cent per annum, and to secure the payment of said two deferred notes, a lien on the property sold will be retained. Purchaser or purchasers may pay all cash if they so desire. Possession will be given March 1, 1917.

FOR THE BEST
NOTHING ELSE

ATTENTION, ADVERTISERS.

With newsprint paper quoted at 10 cents per pound by the wholesalers, (when 7 months ago we could buy it at 2 1/2 cents); lino type metal at 11 cents per pound and ink 10 cents (a 100 per cent. advance) material used to publish a newspaper advanced from 50 to 200 per cent, the publisher is forced to either advance his charges for advertising space, job work and subscription; or quit the business. All of our advertisers know something of these advances—they all buy paper for wrapping purposes, paper bags, boxes, etc. They know, too, that the publisher and his employees have to pay them more for what they have to sell.

Now, something has to be done to equalize matters.

With paper costing 10 cents a pound, it means that the 104 issues of the paper sent to each subscriber during the year costs us \$1.04—that is just the cost of the paper alone the labor, mailing and hundreds of other expenses must be added to that. So, you see, at \$2.00 per year for subscription, the publisher can't make ends meet. We have a large list of good paying subscribers who are willing to pay \$2.00, but would not stand for a raise. The advertiser desires to reach all these good people with his advertisement, so we are willing to continue to carry them, even if we are losing money on every subscriber. The money must come from some other source. The price on job work and advertising space must be advanced like all other products, such as clothing, shoes, groceries, furniture, dry goods, etc.

We pay the merchant more for what we buy of him, because he has had to pay an advance to the wholesaler and jobber for his goods. Isn't it fair that we should be entitled to an advanced price on what we have to sell? Of course it is.

We have already demanded of the foreign advertiser more money for space and they have paid the price without a word.

Now, we will be compelled to get more from some of our home advertisers who have large advertisements running, on which they are paying the old price—the contracts having been made some time ago, before the prices shot skyward.

Now the proposition is this: Those who have the large ads and don't care to spend any more money will consequently have to be satisfied with smaller spaces.

Beginning on February 1 we will reduce the size of these advertisements one-third, if the advertiser does not notify us that he is willing to pay a third more and keep the space he is now using. Our space is constantly in demand and we can get our price from the foreigner, but prefer to do business with the home merchant on the same basis. If you care to keep your ad the same size say to us that you are willing to pay the advance price of one-third. If we don't hear from you we will presume that you will want the size reduced one-third.

TALKS TAX REFORM TO SCOTT COUNTY PEOPLE.

Hon. Reuben B. Hutchcraft, Jr., of Paris, addressed a large crowd of Scott county people at the court house in Georgetown, Saturday afternoon on the question of why an extra session should be called for an extra session of the Legislature should be called for the purpose of enacting the recommendations of the Tax Commission into law.

Mr. Hutchcraft told of the State's indebtedness of \$5,000,000, which increases \$60,000 per month, and declared that unless something is done to reduce the valuation of lands will be greatly increased. His address was well received by the Scott county people.

BOURBON FARMING CONDITION

Snow and severe cold weather have interfered with all kinds of farm work and the tobacco market. There were no sales several days because of the inability to get the crops to market. An unusual sight was witnessed when three sled loads of tobacco, each containing about 2,000 pounds were hauled up Main street to the Bourbon Tobacco Warehouse, coming from the Bunker Hill vicinity, near North Middletown. The market has been active and strong and much good tobacco remains yet to be sold. The sales will continue until March.

E. F. SPEARS & SONS BUY 1,000,000 POUNDS HEMP

Fully one-half the hemp production of Clark county, one million pounds approximately, representing the product of two thousand acres, will pass into the possession of Messrs. E. F. Spears & Sons, of this city by the terms of a deal made in Winchester, Saturday, between representatives of the Clark county hemp growers and Mr. Woodford Spears, of Paris, for the firm.

The price paid for the staple was \$13.75.

Spears & Sons will acquire the first half of the crop that is broken out, and the price they paid is said to have been \$2.25 in excess of that which was paid last year, when about five hundred acres represented the hemp production in the county. This purchase will mean that E. F. Spears & Sons will turn over to the hemp growers of Clark county a sum in the neighborhood of \$137,000. Delivery of the hemp will begin in the latter part of March or as soon as the weather conditions will permit the crop to be broken out.

Dawson, R. S. Darnaby, James McDonald, Thos. Darnaby, D. D. Smith, Samuel Crawford, Kelly Haley, Claude Weathers, and Varden Shipp, Misses Mary and Robert Gorham and Ethlyn Smith.

DAUGHTERS OF CONFEDERACY OBSERVE LEE'S BIRTHDAY

One of the most interesting meetings of the year was the one held at the court house Friday afternoon by the members of the local chapter Daughters of the Confederacy, the occasion being the observance of the anniversary of the birth of General Robert E. Lee.

Mrs. John J. Connell, president of the Chapter, in a neat little speech,

introduced Col. Henry George, Commandant of the Confederate Home at Pewee Valley, as the principal speaker of the afternoon. Col. George delivered a most interesting and pleasing address to the assembly, taking for his subject, "Robert E. Lee and the Confederacy." His address was a masterpiece of oratory, and was listened to with rapt attention by his audience, among whom were the remnants of the gallant band who left Bourbon county in the memorable days of the war to fight for the "Lost Cause." Among these were Col. James Arnold, now of Newport, and Col. Thos. M. Moore, now a resident of Lexington.

A very interesting report of the proceedings of the National Convention of the D. of C., held at Dallas, Texas, some time ago, was made by Mrs. Russell Mann, of Paris, who was present at the Convention as a delegate from the local Chapter. Mrs. Mann's address was well received, and gave in detail some of the most interesting phases of the Convention meeting.

Following the addresses and the disposition of the routine business a social hour was enjoyed by the guests and the members of the Chapter, during which they were served with sandwiches, coffee and hot chocolate. The attendance was considerably cut down because of the inability of a large number of members who reside in the county to reach Paris on account of the snow blockade. Those who did brave the inclement weather and its attendant discomforts were amply rewarded in the enjoyment of the occasion.

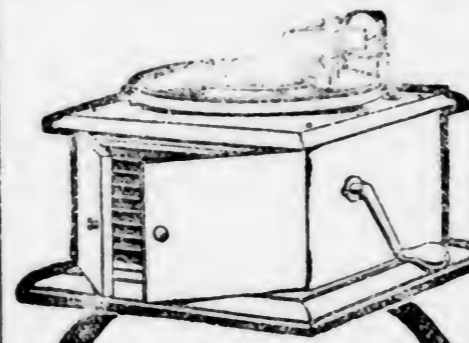

DR. RAYMOND McMILLAN TO HEAD DENTAL SOCIETY.

At the regular monthly meeting of the Blue Grass Dental Society held in Lexington Saturday night the annual election of officers to serve for the ensuing term was held. The meeting took place in the private dining room at the Leonard Hotel and was preceded by a dinner. Dr. Raymond R. McMillan, of Paris, was honored by being elected president of the society. Dr. McMillan is one of the leading dentists in the State and his selection as head of the Blue Grass Dental Society is a fitting testimony of the esteem in which he is held by his fellow-practitioners. The society voted to hold a big mid-winter meeting in March, at which clinics will be held and papers read by some of the most eminent members of the dental profession in the State.

GERMAN OCEAN WARFARE AGAIN AT WORK.

RIO JANEIRO, January 22.—A German raider for the past month has been sinking vessels of Entente Allies Powers in the South Atlantic. Latest reports fix the number at 15. Survivors of the destroyed vessels to a number of 237 have been landed at Pernambuco, and the fate of nearly 450 men is still unknown.

The first official statements given out here regarding the raider were to the effect that seven vessels had been sunk and nine captured. In a communication to the Minister of Marine, the Captain of the Port of Pernambuco declared that he had learned the raider had also sunk eight of the vessels which were at first reported merely captured. Their crews, the fate of which is not known, numbered 441 men.

It is considered almost certain here that the German sea raider, which has been creating havoc among Entente shipping in the South Atlantic, is the Moewe, the German armed raider which captured the Appam and

sank numerous Entente ships in Atlantic waters a year ago.

The American Consul at Pernambuco has cabled the Embassy confirming the landing of several Americans from vessels which fell victims to the raider. He added that no American ships had been sunk by the German craft, and that all the American sailors landed were men from the crews of foreign vessels.

According to reports from an authoritative source, the Moewe is understood to have sailed from Kiel under the Danish flag, carrying a cargo of hay on the bridge in order to conceal her armament. When last seen the Moewe was painted black, with white markings. Her armament included four torpedo tubes in service and several tubes in reserve. She is believed to have carried a mine-laying apparatus.

"THE EATS" GETTING SCARCE IN GERMANY.

STOCKHOLM, January 22.—The food situation in Germany has grown much worse during the last six months, according to the experience of an Associated Press correspondent who has returned from a trip to Berlin. Potatoes are so scarce that this week's per capita ration in Berlin was less than four and a half pounds. This is attributed in part to the farmer withholding shipments until February 15, when higher prices will be permitted, but it is not denied that the potato crop is insufficient to meet normal demand.

No cheese has been on the market since August and eggs are unobtainable, except surreptitiously at 16 to 20 cents each. Berlin's daily milk supply is about 350,000 litres, against a normal 1,000,000, and it is impossible to buy clothing, shoes, stockings or blankets except by permission of the police.

In the United States 2,000,000 children, 10 to 15 years of age, are employed in gainful occupations.

MRS. VISCONTI A KENTUCKIAN

Mrs. Ruth Thompson Visconti, who has been summoned to testify in the "leak" investigation in Washington, spent the early part of her life in Scott county. She was the daughter of Bert Thompson, who for a time lived on the farm of Mrs. Annie Nutter, on the Lone Lick pike, out of Georgetown. She was born at Switzer, not far from Stamping Ground. Her mother before her marriage was Miss Talbot, and she, of course, has many relatives in Scott county and has visited Georgetown with her mother since going away.

From Georgetown the family moved to a Western State and subsequently went to Florida, where the father died. The mother and daughter and two sons, Alex. and Guy, then removed to Johnstown, Pa., where Miss Thompson became Mrs. Visconti. In recent years she has been connected with official Washington in the capacity of secretary to a reporter on one of the leading dailies.

EAT WITHOUT FEAR OF INDIGESTION OR SOUR, ACID STOMACH

Instant Relief! "Pape's Diapepsin"
Ends Your Stomach Trouble
Forever.

Wonder what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belching gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and distress. Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without delay.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary. (adv)

INSURANCE CASE OF STATE-WIDE INTEREST

The case of T. T. Forman, of Lexington, against the Mutual Life Insurance Company, on appeal from the Fayette Circuit Court, was argued before the Court of Appeals.

Forman carried a twenty years deferred dividend policy of \$2,000 with the company. At the end of the twenty years, in 1912, the company claimed that it owed Forman \$510 in dividends. Forman contended that he should have received \$965 in dividends. The decision of the Court will be of State wide interest as there are thousands of policies in this company held by Kentuckians.

PAINFUL COUGHS RELIEVED.

Dr. King's New Discovery is a soothing, healing remedy for coughs and colds that has stood the test of nearly fifty years. For that cough that strains the throat, and saps the vitality, try Dr. King's New Discovery. The soothing pine balsams and mild laxative ingredients soon drive the cold from the system. Have a bottle on hand for winter colds, croup, grippe and bronchial affections. At your Druggist, 50c. (adv-jan)

REPUBLICANS PLAN HOUSE PROGRAM.

House Republicans will hold a party conference soon to map out a legislative program for the next Congress, which their leaders claim will be under Republican control. Representatives Gardner, of Massachusetts, and Hicks, of New York, announced that more than enough signatures have been obtained to a petition circulated by them, to be presented in a few days to Representative Green, of Vermont, chairman of the caucus. No date has been set, Representative Gardner said. Republican Leader Mann had not been consulted, and it was said that it was not intended to raise the speaker's question at the conference.

RUB NEURALGIA PAIN AWAY! QUICK RELIEF

Stop Suffering! Rub Neuralgia Pain From Face, Head or Body With "St. Jacob's Oil."

Get a small trial bottle! Rub this soothing, penetrating oil right into the sore, inflamed nerves, and like magic—neuralgia disappears. "St. Jacob's Oil" conquers pain. It is a harmless neuralgia relief which doesn't burn or discolor the skin. Don't suffer! It's so needless. Get a small trial bottle from any drug store and gently rub the "aching nerves," and in just a moment you will be absolutely free from pain, ache and suffering, but what will please you more is, that the misery will not come back.

No difference whether your pain or neuralgia misery is in the face, head or any part of the body, you get instant relief and without injury. (adv)

HOW TO CHECK THAT COLD.

When it is painful to breathe and fever sends chills up and down your back, you are in for a cold. A timely dose of Dr. Bell's Pine Tar Honey will stop the sneezes and sniffles. The pine balsam loosens the phlegm and clears the bronchial tubes, the honey soothes and relieves the sore throat. The antiseptic qualities kill the germ and the congested condition is relieved. Croup, whooping cough and chronic bronchial affections quickly relieved. At all Druggists, 25c. (adv-jan)

LAST SURVIVING OFFICER*
OF FARRAGUT'S STAFF DIES

Capt. Charles H. Baxter, last surviving officer on the staff of Admiral Farragut, died at his home in New York at the age of 83 years. Capt. Baxter was born at Baton Rouge, La., and had served as an officer with the British forces during the Sepoy rebellion in India and later in the Crimean War and the rebellion in Madagascar. He served as an officer in the American navy throughout the Civil War. Three daughters and a son survive him.

INACTIVITY CAUSES CONSTIPATION.

Lack of exercise in the winter is a frequent cause of constipation. You feel heavy, dull and listless, your complexion is sallow and pimply, and energy at low ebb. Clean up this condition at once with Dr. King's New Life Pills, a mild laxative that relieves the congested intestines without griping. A dose before retiring will assure you a full and easy movement in the morning. 25c at your Druggist.

Cincinnati Man Tells How to Shrive Up Corns or Callouses so They Lift Off With Fingers.

Ouch! ? ? ? This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called Freezone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.

He says Freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of Freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have Freezone tell him to order a small bottle for you. (adv)

THE TOBACCO MARKET

The Independent House had only a small sale Friday, the floor of 9,629 pounds being disposed of for a total of \$1,856.67, an average of \$19.30. The light offering was due to the almost impossible condition of the roads, caused by the heavy snows. The market was strong and active. Some of the averages are as follows:
Clark & Howard, 2,245 pounds for an average of \$21.08.
Geo. W. Estes, 470 pounds at \$17.79.
Clark & Keller, 775 pounds at \$21.01.

MOTHER! DON'T TAKE
CHANCES IF CHILD'S
TONGUE IS COATED

If Cross, Feverish, Sick, Bilious, Clean Little Liver and Bowels.

A laxative to-day saves a sick child to-morrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleaning" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company." (adv)

THE MIDDLE-AGED MAN.

The fallacy of the inefficiency of the middle-aged man is to be exposed if possible by a committee of Chicago capitalists who will make tests of men between forty-five and sixty-five years old in comparison with younger men.

This is a very wisely undertaken task, for it has long seemed strange that in a country which is managed in every important aspect by men of middle age and over, the same age in subservient position should be underestimated by reason of prejudice. For it cannot be doubted that prejudice more than reason has caused the declassing of older men as useful workers.

It is well enough known that the mere physical endurance of a man of forty to fifty is greater than that of a man of twenty-one. Moreover, the older man's judgment is mature, his experience has ripened; frequently his failure to have advanced his own material interests is due solely to the faithfulness with which he has served his employer's interests. Younger men may have more effervescence; they may indulge in the display of more "pep" in their work; but these are passing qualities, and as often as not they represent lost motion. They seem to indicate that the youngster is really accomplishing something, when as often as not the quiet worker who does not attract much attention by his "rush" is really achieving more steadily and substantially. It is on the cooler side of the "pep" period that a man reaches his greatest efficiency, and his value as a servant in any line of endeavor ought to be at its height about the age of fifty-five.

The young man has his place in the work of the world, and the older man has his place. Wise administration will put age where it can best exercise its power. It is just as impossible for younger men to make older men unnecessary in the daily work of shouldering the world along, as it is for older men to dispense with younger men. Age is an individual matter anyway, and not a matter of years. The color of the hair is not an infallible indication of the vigor of the mind. The Chicago committee, by pursuing proper methods in its test, may do much to correct the current prejudice about the man who has grown old enough to control his powers and work without fuss or noise.

ZONE RATE IS STRICKEN FROM POSTOFFICE BILL

Postoffice department recommendations for a zone system increasing postal rates on newspapers and magazines, for penny postage on local delivery and for curtailment of the pneumatic tube mail service in cities, were stricken out of the annual postoffice bill by the House, sitting as a committee of the whole. It is expected another vote on the provisions will be demanded when the measure comes up.

MAN IS LEFT-HANDED BOTH INSIDE AND OUT.

The body of William King, which has been preserved for twenty months is described by anatomists as "left handed, both inside and out," according to a statement made public at the City Hospital in St. Louis, Mo.

On May 8, 1915, King, who was 35 years old, applied at the hospital for treatment. He said he was a laborer and had lived most of his life in Wisconsin. He was suffering from typhoid fever.

When asked who should be notified in case of his death, King said: "Don't worry about that. Just cut me up and examine my body; there's something wrong with me besides the fever." He died a few days later.

When surgeons made an examination of the body they found one of the abnormal cases in the history of surgery. The heart was on the right side; the liver on the left; the appendix was on the left side and the spleen on the right. The stomach was turned around completely. On the left lung was three lobes; the right lung had but two. The left kidney was larger and lower than the right one.

EXERCISE YOUR WILL.

In the January Woman's Home Companion a writer says:

"Let us keep it in mind each day that a weak will is the sign of inferiority; it means that we belong to the lower classes, to the weaker and inferior; and then remember that if we remain weak and inferior, it is not because we must, but entirely because we prefer to; and remember that we can become one of the intelligent ruling class if we choose: Let us set ourselves certain tests of will, and remember to let them be tests, not tasks. Let us throw away if we can, all somber ideas of duty and all ideas of our weakness being sinful. Perhaps it might be accounted so by those of a strongly religious trend; but let us remember that our task, our whole splendid and joyous task in this instance, is to learn to exercise and use our own powers.

"It is Emerson who says, 'What you are speaks so loudly, I cannot hear what you say.'"

for passage next week and if they again are rejected they will be reintroduced in the form of a separate bill.

The postoffice bill, carrying appropriations of \$322,000,000, was completed in committee of the whole and House leaders expect it to pass. Other provisions stricken out included \$100,000 appropriation for an experimental aeroplane service and a proposal for a boarding guarantee system for postal employees. Repeated efforts to put into the bill a section authorizing government ownership of telegraph and telephone lines were blocked by points of order.

MATRIMONIAL.

HINTON-WILLIAMS.

The marriage of Mrs. Nellie Varden Hinton, formerly of Paris, to Mr. Burton F. Williams, of Chattanooga, Saturday morning.

Mr. and Mrs. Williams will be at home to their friends, in Chattanooga, after January 25.

The bride is the daughter of the Rev. George S. Varden, of Paris, and aunt of Messrs. Joe and Blair Varden, and Mrs. Hugh Brent, of Atlanta, Ga. She has been a member of the clerical force of the Bryan & Hunt wholesale grocery firm in Lexington for some time, and is well known and popular both in her old and her new homes. During the last three Democratic campaigns in Fayette county she was in charge of the stenographers in office of the Campaign Committee. Mr. Williams holds an important position in the service of the Institute Commission at Chattanooga, where he is the chief accountant for the Commission.

BIRTHS.

—To the wife of Mr. Robert L. Harney, a son, their fifth child.

—In this city, to the wife of Mr. Ora Bannister, a fine son, second born, first son—christened Tilton Burn Bannister.

—In this city, Sunday, to the wife of Mr. J. Sims Wilson, a son, christened Douglas McClintock Wilson.

—To the wife of Mr. William Bush, of near Austerlitz, a son. In the North Middletown precinct, the homes of Mr. and Mrs. Columbia, Mr. and Mrs. Foster McKinney and Mr. and Mrs. John Willoughby were visited by the stork, leaving a daughter at each home.

BEWARE THE MOTOR APPETITE.

You have heard of the "motor car race," that grim-mouthed, half-frenzied look which nervous drivers acquire, and of the "motor car air," the pitying attitude of those who ride toward those who walk. But have you heard of the "motor car appetite?" Well, it's a thing that's troubling physicians.

This appetite is developed from riding in the sharp air. It has an artificial edge on it, since it is not born of exercise. People gorge themselves when they ought rather to be putting on the brakes. They haven't earned the great meals they eat. Digestion rebels. The doctor is visited. He knows the signs. "Eat a lot I suppose?" he says. "Ride in a motor car?" "Never walk if you can help it?" Justification enough for indigestional civilization.

WHY TRAINS RUN LATE IN WINTER.

Whenever severely cold weather or snowstorms of unusual extent trouble the earth, freight and passenger trains run late, anywhere from an hour to a day. The Cincinnati Post has been looking into the matter, and as a result publishes the following editorial, which will be interesting to Paris and Bourbon county readers of THE NEWS, who are not well versed in the fickle ways of railroad trains missing their schedule:

"Every time we have a spell of cold weather in this country railroad systems seem to go to pieces.

"All travelers know the fact, and most of them speak violently about it. In any cold snap no train that runs 400 miles will arrive on time. When the mercury begins to drop the trains begin to run late. The lower it drops the later they run.

"There seems to be some mathematical rule about it. Every degree of lower temperature takes off so much of train efficiency. A train that will be an hour late on a temperature of 12 above will be two hours late on a temperature of 6, three hours late at zero, and a day late at 24 below.

"Railroad men say there are two causes. In cold weather the locomotives will not make enough steam to haul the trains and heat them, too. And in cold weather switches at stations and junction points freeze up and must be thawed out before a train can go ahead.

"No doubt this explains why trains are late. But it doesn't explain why railroad management allows them to be late. Other countries much colder than our do not have these troubles. Norway, Switzerland, the South Island of New Zealand operate railroads in worse weather than we usually have, and do it without our abominable nuisance of late trains.

"It isn't necessary to have frozen switches. It isn't necessary to have such long trains that locomotives will not pull them and heat them, too.

The Hungarian Government has established an experiment station for the study of the culture of flax and hemp.

SOME CURIOUS FACTS.

If a tallow candle be placed in a gun, and be shot at a door, it would go through without sustaining any injury, and a musket ball fired into the water will rebound and be flattened as if fired against a hard substance. A musket ball may be fired against a pane of glass, and, if the glass be suspended by a thread, it will not even vibrate. Cork, if sunk twenty feet in the ocean, will not rise again, on account of the pressure of water. In the Arctic regions, when the thermometer is below zero, persons can converse more than a mile distant. Mr. Jameson asserts that he heard every word of a sermon at the distance of two miles on a very still day with perfect distinction.—Ohio State Journal, Columbus.

MONEY IN THE SCRAP HEAP.

The American people are coming to realize that big money lies hidden in the scrap heap, and they are profiting by the lesson. The Sebree, (Ky.) Banner, in a recent issue, has the following with reference to the "trash" of the tobacco growers, which may eventually prove of great interest and a source of revenue to the tobacco growers of this county, as well as those of all the counties in the State:

"There was a time when farmers looked on a \$2 price as the top for trash, and it was a common saying that 'trash is trash.' Those who were present and watched the sales on the loose floor here Saturday were convinced that trash was more than trash, when one farmer received a higher price for his trash than he received for lugs off the same tobacco. Several baskets of the commonest trash sold for \$8 and higher."

The rise in prices is another thrifty lesson to the tobacco growers and will help greatly to stimulate the national thrift campaign. It may be said that where there is no waste there is no want, and that it will be possible to embark in the banking business at the sign of the scrap heap.

GIRLS HIT "HIGH COST;" SHORT SKIRTS THE THING

Assemblyman Carl Pieper, of Milwaukee, believes the eighth wonder of the world is the American girl who has tackled the high cost of living proposition and is making a good job of it.

Because he regards the short skirt as "real economy and retrenchment" he has prepared a joint resolution congratulating the women of the State for pointing out one avenue for the smashing of high prices.

"What has bothered our best experts," said he, "is accompanied by the American girl with a grace and style that excites the admiration of every human being from the boot black in the street to dignified Justices of the Supreme Court.

"Having gone the limit in saving material in the make-up of the dress from the neck down, the American girl now startles the world with her economy and retrenchment on the other end."

THE FIRST STEP.

One cent "drop" letter postage will probably become a reality as a result of legislation which is expected the present session of Congress will enact as a first move in the direction of a general rate of one cent for ordinary letters.

An active campaign has been in progress for the last five years looking towards one cent letter postage. This has culminated in a definite agreement on the part of legislative authorities at Washington to grant a one-cent local rate in all cities and towns where deliveries are made. This is the first step, the one which counts, according to those who are prosecuting this campaign towards securing a general rate for the entire country.

Hours—Alamo, 2 to 5:30; Paris Grand, 7 to 10:30. Admission 5 and 10c.

"The Daddy Man"

always feels himself a "buffer" between the knocks and hardships of the World and the helplessness of the child.

This is all right while he lives—but if something should happen to the father, who will be the "buffer" then?

87 1-2 per cent. of all estates left for administration consist only of Life Insurance—how unwise for a man to think that he is all sufficient in providing an estate for those he loves.

LIFE INSURANCE is the only sure way.
